

Legend Golf & Safari Resort – Founding Member of GST

Verification audit at Legend Golf & Safari Resort according to the 4C's

Legend Golf & Safari Resort Management has a lifestyle philosophy of economic growth, environmental integrity and social justice. Legend Golf & Safari Resort is managed according to a conservation services management plan. They are part of the Entabeni Conservancy Programme and have a strict and expansive management plan for the reserve area and the accommodation, which is audited annually.

C1. Conservation

Legend Golf & Safari Resort has a clear policy with regard to natural as well as cultural conservation. This mindset is displayed in all activities, items, actions, and persons involved. EIAs are obtained for the building of the golf courses, and mitigating work is done to limit their negative environmental impact. Several mitigating projects are embarked upon to support their drive for sustainable tourism management.

C2. Community

Remuneration is according to the philosophy of social justice and includes many perks, in addition to monetary compensation. The owners actively support and encourage employee involvement in all aspects of the conservation and development activities at the resort.

C3. Customer

Many cultural heirlooms are displayed together with some interesting stories. Authentic experiences are promoted: exquisite golf courses and famous 19th hole, silence, spectacular vistas, veld walks, pool, animal and bird watching, cycling and canoeing. There is a clear written evacuation procedure displayed in the rooms, including emergency telephone numbers. A very attractive magazine is available in the rooms and a user-friendly website, packed with plenty of facts and information, can be accessed for perusal.

C4. Company

The covid lockdown gave the business a huge financial knock. However, some clever marketing and tenacity will in time alleviate this.
